WELCOME TO THE SUMMER 2016 NEWSLETTER

The completion of the first two growth capital investments made under the new VCT rules and steady portfolio performance has contributed to a positive start to 2016.

Impact of Brexit

The decision to leave the EU has created considerable short-term uncertainty for the UK economy and market volatility. This is unwelcome, but we believe that Brexit will not have a significant impact on our investment programme nor on the VCTs' performance over the medium-term.

New VCT Rules - a reminder

New VCT legislation under the November 2015 Finance Act has caused your VCTs to change the focus of new investment towards smaller, younger businesses. Investments to finance the acquisitions of businesses, such as MBOs, are no longer permitted, although the VCTs' existing MBO investments continue to be qualifying holdings. This new legislation has affected all investments made by ALL VCTs.

Investors in I&G VCT, MIG VCT and MIG4 VCT will be aware that those Companies have recently revised their Investment Policy in order to comply with the requirements of the new legislation. The Board of MIG2 VCT has recently sent similar proposals to its shareholders, for approval at MIG2's Annual General Meeting on 15 September 2016. As Investment Adviser, we are progressing several new investment opportunities that comply with the new legislation and are confident that we can continue to deliver good returns to shareholders.

Shareholder Event - Date for your diary

The next meeting will again be held at the Royal Institute of British Architects, on 24 January 2017. An invitation is enclosed with this newsletter.

INVESTMENT AND PORTFOLIO NEWS

Ten largest investments

Across the current combined asset base of £240.3 million, the VCTs' ten largest investments account for £87.4 million by value (36% of the asset base) and are shown in the table below.

Company	Business	Total (£m)	
		Cost	Valuation
 Entanet International	Wholesale communications provision	9.5	13.5
 Virgin Wines	Online wine retailing	8.4	12.3
 ASL Technology	Printer and photocopier services	9.7	11.1
 Access-IS	Data capture and scanning hardware	11.0	11.0
 MBI	Events and publishing	11.7	9.9
 Veritek Global	Maintenance of imaging equipment	6.9	7.0
 Motorclean	Vehicle cleaning and valet services	5.3	6.6
 Tharstern	Print sector management information systems	4.7	5.8
 CGI	Adhesive decorative graphics for vehicles	6.2	5.5
 Gro-Group	Baby sleep products	7.1	4.7
Total for ten largest investments		80.5	87.4
Other Investments		91.4	84.7
Portfolio Total		171.9	172.1

The above data have been extracted from each VCT's latest announced financial information, adjusted for subsequent additions and disposals to 30 June 2016.

New investment - Total: £5.8 million

Two new investments have been completed into Redline Worldwide and MPB Group, shown in the table below.

Company	Business	Month	Amount (£m)
 Redline Worldwide	Aviation security services	February	3.7
 MPB Group	Online platform for used photo equipment	June	2.1
Total			5.8

Redline is a market leader in the provision of aviation security consultancy and training services to airlines, airports and governments. The investment will be applied to enable the company to grow in its core aviation market and in other sectors.

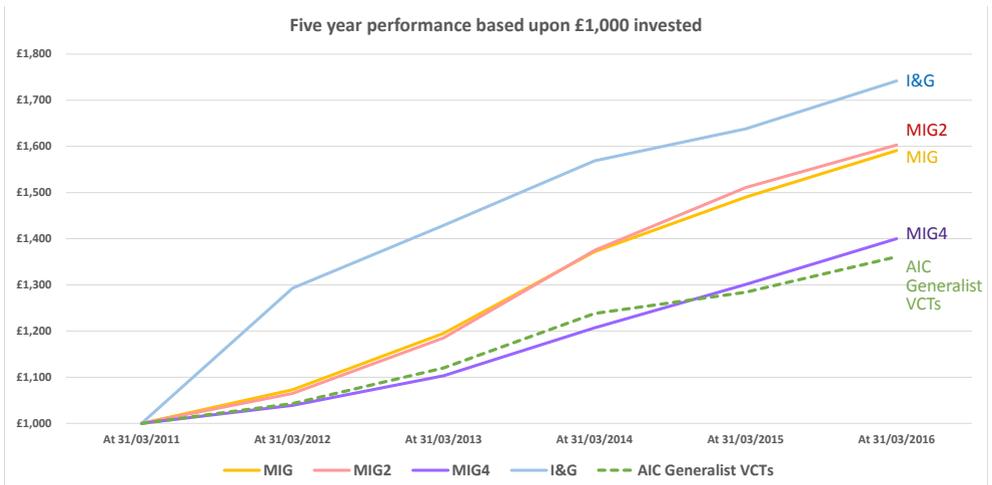

MPB Group is the UK's largest dedicated market place (www.mpb.com) for used photographic equipment. It offers a complete end to end experience for buying and selling SLR cameras, lenses and other accessories. It is a rapidly growing business that plans to use the investment to expand into two new overseas markets.

Realisations - Total: £8.3 million

The half year was marked by a number of loan repayments, due to strong cash flow at those companies, and the receipt of deferred proceeds from previous sales, as analysed below.

Company	Month	Proceeds (£m)	Realisation
 Ward Thomas	January	3.6	Loan repayment
 Focus Pharma	January-March	1.8	Deferred proceeds
 Original Additions	March	0.5	Full exit
MONSAL Monsal Holdings	January	0.4	Deferred proceeds
 Motorclean	February	0.3	Loan repayment
 Jablite	April	0.2	Loan repayment
 Newquay Helicopters	February	0.1	Voluntary liquidation proceeds
Various	January-February	1.4	Loan repayments/deferred proceeds
Total		8.3	

RELATIVE PERFORMANCE OF THE MOBEUS VCTS

What does this chart show?

This chart shows the NAV cumulative return at 31 March each year, assuming £1,000 has been invested in each VCT at its NAV per share at 31 March 2011. The figure at each year-end represents the net asset value per share plus dividends paid per share, multiplied by the number of shares held in each VCT at 31 March 2011, as a result of the investment of £1,000.

The Mobeus VCTs' relative performance compares favourably to the index of AIC (Association of Investment Companies) Generalist VCTs.

SHAREHOLDER RETURN PERFORMANCE DATA FOR EACH VCT

We hope shareholders will be pleased to note that the most recent AIC performance data over the 5 years to 31 May 2016 (on a NAV cumulative total return basis) rank the Mobeus VCTs as 1st at +75.2% (I&G), 3rd at +65.3% (MIG2), 4th at +62.5% (MIG) and 18th at +34.5% (MIG4) out of 47 generalist VCTs.

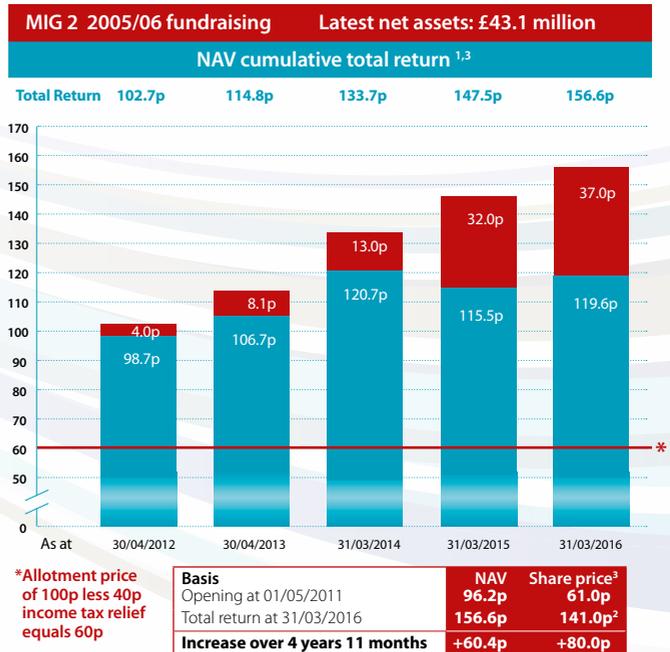

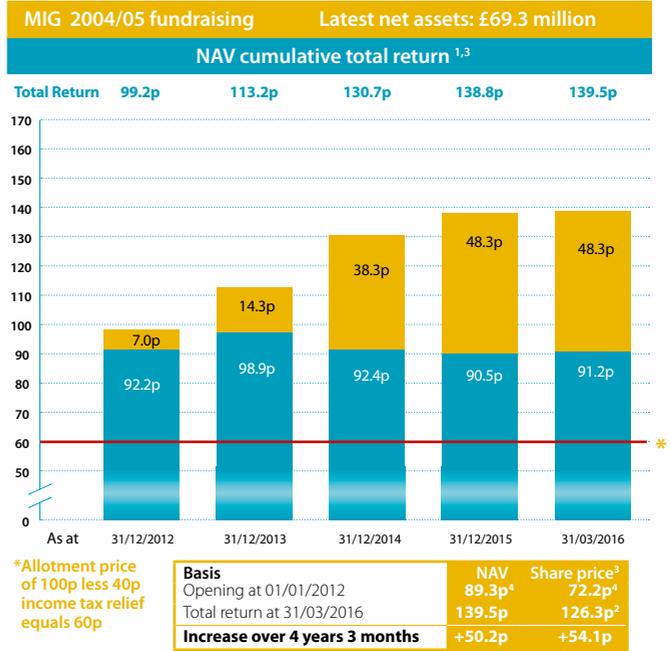

What do these charts show?

Each bar chart shows cumulative total returns on a net asset value ("NAV") per share basis. They each show five bars of data, covering the last four full financial periods, plus the current period to 31/03/16, for that VCT. Each bar shows the two components of total return at each period end. The lower part is the closing NAV, while the higher is cumulative dividends paid or payable in respect of a period, since the start of the VCT's financial period ending in 2012.

Underneath each chart, the growth, in pence, in NAV Total return (NAV + dividends paid/payable) and Share price Total return (Share price + dividends paid/payable) over the opening NAV and bid share price for each VCT's reported performance period, is stated.

The red line across the bars shows the original investment cost for the fundraisings indicated in the charts, net of applicable income tax relief, to an investor.

The data in the four charts cover a range between 4 years and 2 months to 4 years and 11 months. This is due to the three differing year-ends amongst the four VCTs. Shareholders should note that the data do not enable direct comparison of the VCTs' relative performance, due partly to these differing reporting dates.

MIG 4 2006/07 fundraising Latest net assets: £53.9 million
NAV cumulative total return^{1,3}

* Allotment price of 120.9p less 30% income tax relief equals 84.6p
